

Since the rules of the Bankruptcy Court are established by Congress under Article 1, Section 8, I contacted Senator Kerry and asked for help. He turned the matter over to his aid, Ashley O'Neill. She asked that I send to her the full discourse with the Massachusetts Board of Bar Overseers (BBO). In addition, I sent court documents relating to the lawsuit pertaining to the General Electric account.

The attached documents were sent to her, and forwarded by her to the BBO. The file marked "Cover.pdf" was the cover sheet that explained the exhibits and the discrepancies between the various exhibits.

The file marked "Kerry.pdf" is the correspondence between me and Kerry's office, as well as between Kerry's office and the BBO. As noted, the BBO stood by their original decision that Nader did nothing wrong and implying that somebody in General Electric embezzled the money.

Files in each subdirectory should be examined in alphabetical order. Note that the letter from the BBO was backdated by one year!
