Subject: Letters

I received two letters which I have attached.

Tom Weber is supposed to be preparing tax returns for me, but I do not know when they will be ready. Please contact the tax department and do something so that they will wait.

I received a second letter from this Schept. You were supposed to contact him and tell him not to write to me again. Please take care of him.

Also, my auto registration expires the end of this month. I cannot register it in Mason, because the business no longer exists there. I cannot register it in Massachusetts because the business does not exist here and I do not have a Massachusetts insurer. I cannot register it myself because I do not own it. What do you suggest?

Frank
