Dear Sir:

I am an engineer and businessman. Three years ago, I hired an attorney who defrauded me out of the business that I spent my life building. When I discovered the fraud, I tried to find an attorney to help me to recover from the damage. After contacting dozens of attorneys, nobody would give me any help. The evidence against this attorney continues to accumulate and I think that I have solid proof of criminal conduct. I do not know how to file a complaint. I have visited the Westford Police Department and they told me to hire an attorney.

I have put together a chronology of events and documents. Please examine them and advise me if you can help. If you wish to talk to me, I can be reached at 978 692-0109.

Thank you,
